

## How iBizOnCall Works

Where do you come in?

Web hosting is an extremely important service. With the proper equipment and maintenance, you can have a very successful web hosting business. But sooner than later, you will realize that as it grows and grows, so do your expenses.

As you probably know by now, the only downside of this kind of enterprise is the cost of all the equipment and employees. Computer servers are expensive devices, and of course you will need top of the line equipment if you hope to stay on top of the competition, and most of the personnel needed for maintaining it usually consists of highly specialized IT professionals that demand sky-high salaries. Then there's the fact that you need to provide support to each and every one of your costumers, so then you need to hire even MORE high-cost professionals so that your costumers can fix their problems at any time and as fast as possible.

Where do we come in?

iBizOnCall is the easiest way to basically make your business run itself. The only thing you'll ever have to worry about again will be getting new costumers, and even then that will be easy for you once your current ones start talking wonders about the service that you provide for them.

And that's it, we'll do the rest for you.

We will provide your customers with professional technical support 24 hours a day, 7 days a week, the 365 days of the year!

Our iBizOnCall support team is the best on the field. They have seen it all and are completely familiar with the iBizPanel. They are also qualified to give support on 2 different languages, will always be courteous and friendly and, most important of all, they will keep iBizOnCall completely invisible to your costumers!

This is possible thanks to the fact that our team has been assembled from the best of the best. They are chosen based not only on their great technical skills and certifications, but communication and human relationship skills as well. You will not find a support team that understands the customer's needs better than ours anywhere else.

Your time is the most valuable asset you posses, so why should you spend most of it providing more-often-than-not unnecessary support on tedious issues? Let us work for you while you relax, we will support your costumers 24 hours a day, every day of the year.

Whenever one of your direct clients has a problem, they will open up a case within the iBizPanel, and a copy will automatically appear in our iBizOnCall costumers case system. Then our tech team will proceed to respond this case as if they were getting support directly from you.

With our service, you will get support for up to 500 direct clients and 5000 websites and other products within your iBizPanel for only \$500 per month. That's right, a flat rate of \$500. No more headaches finding and keeping smart, qualified personnel, and then spending thousands of dollars a month on their salaries. Do remember that we are only able to provide support to your direct clients, this offer does not apply to any sub-resellers.

This is truly the best example of having your money work for you. You can be sitting at home watching TV while you're literally making THOUSANDS of dollars. And all the while, your costumers will never even hear of iBizOnCall they will feel as if they are solving all of their problems directly with you!

Feel free to contact us if you need more information, we assure you that this will be the smartest investment you will ever make!

Sincerely:

Your friends at iBizOnCall
